

PRESS RELEASE

Moscow, June 21, 2021

Free, fast, easy - Wi-Fi on Moscow surface transport.

Moscow city's buses and electric buses are safe, highly mobile, passenger-friendly and environmentally sound. Low-floor and high-capacity vehicles adapted to all passenger categories, including people with disabilities.

Each electric bus feature USB ports for charging mobile devices, video cameras and satellite navigation systems, as well as Wi-Fi access.

Passengers can connect to the network in transport in buses and electric buses with the MT_FREE Wi-Fi icon in the passenger compartment.

Recently the Wi-Fi network in surface public transport was updated – making it even faster! Passengers value the opportunity to watch favorite TV shows and listen to music without wasting mobile internet traffic during travel.

The connection is seamless, which means that when you first connect, the network remembers your contact details and does not ask for them anymore – Internet access is faster and more convenient.

MT_FREE Wi-Fi works for passengers at 10 Mbps. already on 1,100 buses and electric buses. This internet speed is enough to watch movies and TV series in Full HD. Recently Wi-Fi has started working on 32 surface routes more.

Passengers connected to Wi-Fi in the surface public transport 1.5 million times already. Since the connection more than 10 thousand gigs of traffic used. The average session duration is 6 minutes, there is no connection time selection, but the connection time is limited to 30 minutes by the operator, then reconnection is required.

About Mosgortrans:

Today Mosgortrans maintains 800 surface transport routes. These are daily used by over 5.5 million passengers.

There are 6.5 thousand buses, trams, trolleybuses and e-buses departing on a daily basis. Mosgortrans fleet is getting constantly renewed: an up-to-date rolling stock is acquired being adjusted to the low-mobility groups of people. New transport vehicles have a lower floor and are equipped with systems of climate control, video surveillance and navigation.

The company consists of 23 affiliates including 10 bus/trolleybus fleets, 5 tram fleets and other services maintaining Moscow surface public transport work.

More than 30 thousand company workers provide citizens with a regular, comfortable and constantly improving service.

Mosgortrans is an active member of Russian and international associations of public transport.
