

IN-PERSON TRAINING 

# ELECTRIC BUSES

28 - 30 NOVEMBER 2022  
BRUSSELS BELGIUM

With more and more metropolitan areas targeting zero-emission environments, an increasing number of cities, transport authorities and operators are considering a fully-electric solution for their suburban bus network.

Join us for **Electric Buses**, a training programme that is designed to offer a comprehensive overview of the electric solution for urban bus networks.

Limited seats  
available

Early Bird rate ends  
14 October 2022

## LEARNING OBJECTIVES

- Introduce the electric solution and compare the benefits and drawbacks of the different technologies.
- Learn about the products on offer, the competition and maturity level of the suppliers.
- Understand how to develop an operational and charging strategy.
- Learn from successful major electric bus project implementations including e-bus system procurement, operations and infrastructure.
- Understand how data management can help optimise your operations.

## A TOP LEVEL METHODOLOGY

- Get inspired by our trainers and learn from successful international best practice.
- Participate in plenary sessions which includes an introduction and presentation from the course leaders and the trainer, followed by an open discussion with participants.
- Challenge your practical knowledge on the technology, the implementation and the running of electric buses.
- Address the topic from an international perspective, enriched by different cultural approaches and points of views.

## WHO IS IT FOR?

- Professionals eager to learn more about the technology, implementation and the running of electric buses.
- Staff from public transport operators or authorities planning to extend a fully-electric solution to the core part of the urban bus network.
- Those interested in obtaining a wider and international perspective on e-buses and eager to learn more from international best practice.

## INSPIRING TRAINERS

Our trainers are top level international transport and mobility professionals with extensive experience in public transport and operations.
