Success in Stockholm, as we head on the road to Barcelona...

The [UITP Global Public Transport Summit](#) is back for the first edition in four years, for an immersive, four-day experience that will see Barcelona become the public transport capital of the world.

With a diverse Congress programme, alongside an outstanding international Exhibition full of the latest innovations, the UITP Summit is the place to discover the next steps in urban mobility.

With almost 170 journalists from all forms of media in attendance for the previous edition, the event is a hub of global press activity, resulting in over 2500 articles on the UITP Summit.

Our theme and programme are set to shine in Barcelona...

The theme for the 2023 Global Public Transport Summit is ***'Bright Light of the City'***.

Barcelona is a city where light shines brightly through its rich Mediterranean culture, beautiful architecture, art, food, and social activities.

Public transport gives passengers the freedom to discover the city, to commute, meet friends & family, or navigate wherever you need to go.

With this in mind, we're building our 2023 programme on two pillars to define our focus and direction – ***Cities and People.***

We know that it is the people who work in and use public transport that make it what it is.

Within those two pillars, we will showcase how to develop the conversation around the topics moving our sector forward with six dedicated tracks, three under each pillar.

Under the pillar of Cities our tracks will be Next Gen Cities, Transitioning to Net Zero, Innovative and Resilient Operations.

Under the pillar of People our tracks will be Public Transport for Social Inclusion, Talented, Happy Staff and Customer Centricity.

So with our Programme in place, our Speakers list growing, and our Exhibition building by the day, an agenda full of interview possibility, social events, and free access... ***will you be one of our journalists joining us in Barcelona?***
