CHINA BUS STUDY TOUR 2025

20 > 24 OCTOBER
SHENZHEN | GUANGZHOU | BEIJING

The 2025 UITP Bus Study Tour in China offers exclusive access to world-leading bus systems. In Shenzhen, Guangzhou and Beijing, discover cutting-edge operations, zero-emission technologies, and innovations from top operators and solution providers.

DESTINATIONS

SHENZHEN

Global leader in zero-emission bus deployment and home to the world's largest new energy operator.

GUANGZHOU

Home to autonomous bus pilots, advanced systems, and Southeast China's largest new energy park.

BEIJING

With one of the world's largest bus networks, the city sets a benchmark in green and digital transformation.

EXPLORING CHINA'S BUS SYSTEMS

The 2025 UITP Bus Study Tour offers an inside look at the world's most advanced bus networks. Participants will experience cutting-edge operations, zero-emission technologies, and innovations from leading operators and solution providers.

Each day features:

- Expert presentations from operators, manufacturers, and technology providers
- Site visits to depots, maintenance and control centres, and urban projects
- Networking with Chinese and international transport leaders

STUDY TOUR HIGHLIGHTS:

- Visits to Beijing, Shenzhen, and Guangzhou's world-leading bus networks
- Meetings with global industry leaders
- First-hand look at new technologies: autonomous driving, digitalisation, energy solutions, and safety systems
- Behind-the-scenes access to operations and maintenance centres
- Engagement with major manufacturers and solution developers
- Networking through hosted lunches, dinners, and events

WHO IS IT FOR

- Public transport authorities and operators
- Mobility service providers
- Electric vehicle (EV) solution suppliers
- Transport infrastructure and systems planners
- Policy makers, academics, and consultants in urban transport

JOIN US

Experience the future of bus transport and connect with global leaders shaping tomorrow's mobility.
